Press release

Special Prize Giving to the Awardees of the Life Beyond Life Film Festival, First Edition

Thanks to the Team Play with the Brazilian TV Alvorada Espirita, the Awardees of the Film Festival on Life beyond Life, this year in its First Edition, proposed by ArtInMovimento Popular University and the Cultural Association SystemOut, will be honored with an extraordinary mediumistic painting by Solange Godoy.

By reason of the interworking with the Brazilian Tv Alvorada Espirita and André Luiz Ruiz, the Award Winners of the Life Beyond Life Film Festival, 1st Edition (<https://www.lifebeyondlife.net/>), specifically the Best Feature Film “Superno” by Abel Makesha, the Best Short “Rock Out” by Alice Gadbled and Best Documentary “Sending Off” by Thomas Ash, will receive a mediumistic painting by Solange Godoy, renowned as sensitive artist of the floating world.

“A tribute of great symbolic value, which the LBLFF wishes to pay homage with, to the awardees of the three film sections, having been in competition. Alongside the official laurels, Abel Makesha, Alice Gadbled and Thomas Ash will attain, as well, a magnificent painting work of Solange, being progressively, in the course of her performance, “inspired” by prominent artists of the past.

In the process, registration will be already open for the Second Edition of the Festival, by means of the Filmfreeway platform, clicking on the following URL: <https://filmfreeway.com/LifeBeyondLifeFilmFestival>.

Our intention to go on realising future editions of the Life Beyond Life Film Festival, the ArtInMovimento Popular University (<https://www.unipopaim.it/>) together with the Cultural Association SystemOut (<http://www.systemout.org/>) will keep on synergising with AREI (Afterlife Research and Education Institute/U.S.) and cooperating with Religion Today Film Festival, while a strong team is foreseeing at my side: Andrea Morghen, Matteo Valier, Lucio Toma, Stefano Semeria ed Evelyn Meuren”, refining and concluding Annunziato Gentiluomo.
